PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of experience building and deploying scalable web applications using Java, Spring Boot, Node.js, React, Next.js, MySQL, and AWS CLI. Experienced in designing secure REST APIs, implementing authentication and authorisation systems, optimising application performance, and managing cloud infrastructure. Delivered production-grade platforms from architecture and development to deployment and maintenance in agile environments.

WORK EXPERIENCE

APEX STRUCTURE PVT. LTD.

Indore, Madhya Pradesh, India

Software Engineer

Dec 2025 – Present

- Architected and delivered the full company web platform using Next.js, Tailwind CSS, Node.js, and MySQL, covering design, development, testing, deployment, and maintenance for a platform handling 15+ page modules.
- Built and deployed a scalable Main, Backend and CMS on AWS EC2 with RDS-managed MySQL, implementing CI/CD pipelines that reduced deployment time by ~40%, bringing release cycles down to ~15 minutes per release.
- Developed 70+ RESTful API endpoints with JWT authentication (HttpOnly cookies) and RBAC, enabling secure multi-role access for 10+ admin users with real-time data synchronisation via TanStack Query.
- Provisioned and actively manage full AWS infrastructure — EC2, RDS, S3, CloudFront CDN, SES, Route 53, CloudWatch — achieving CDN-accelerated media delivery and production-grade transactional email at scale.

JAITRRM PRIVATE LIMITED

Delhi, India

Software Engineer & Team Leader

May 2025 – Nov 2025

- Led a cross-functional team of 8+ engineers in delivering Alpha-Way v1 on schedule, managing sprint planning, task allocation, and code reviews via Asana and Taiga – zero milestone slippage across the full project lifecycle.
- Designed and built the Spring Boot backend for the Alpha-Way Admin Panel – implementing JWT-based authentication, RBAC, and 50+ RESTful APIs covering all client-facing features and admin data workflows.
- Collaborated with UI/UX and frontend teams on Next.js + TypeScript + Tailwind CSS integration, defining clear API contracts that eliminated integration rework across two major sprint cycles.
- Partnered with senior tech lead on R&D for new product features, evaluating system design and architecture trade-offs; delivered clean, well-documented code aligned with all client requirements.

PROJECTS

Apex Structure – Full-Stack Web Platform

Stack: Next.js, Tailwind CSS, Node.js, Express.js, MySQL, JWT, AWS CLI

Live: www.apexstructure.in | cms.apexstructure.in

- Designed a modular TypeScript component system ensuring UI consistency across 15+ page modules; measurably improved Core Web Vitals scores post-launch.
- Engineered a high-performance admin CMS using React.js and TanStack Query with real-time server-state management, handling concurrent operations for 10+ admin roles without stale data.
- Implemented JWT authentication with HttpOnly cookies, CSRF protection, and RBAC — securing 70+ API endpoints across 3 access tiers.
- Provisioned complete AWS infrastructure (EC2, RDS, S3, CloudFront, SES, Route 53, and CloudWatch), reducing deployment to ~15 minutes per release with CDN-optimised media delivery.

Alpha-Way – B2B SaaS Platform

Stack: Java, Spring Boot, MySQL, Next.js, TypeScript, Tailwind CSS, JWT, REST APIs

Live: www.alpha-way.com

- Designed a multi-layered Spring Boot service architecture; all 50+ APIs were documented with Postman and version-controlled on GitHub for team-wide consumption.
- Implemented a role-based permission matrix (admin / manager / operator) with JWT-secured session handling, covering all client-facing dashboard features.
- Defined and maintained the frontend-backend API contract with the Next.js team, reducing integration bugs and eliminating rework across two major sprint cycles.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya

B.Tech – Computer Science & Engineering | CGPA: 8.26 / 10

Bhopal, Madhya Pradesh

2018 – 2022

SKILLS

Languages: Java · TypeScript · JavaScript

Frameworks & Libraries: Spring Boot · Hibernate · Node.js · Express.js · Next.js · React.js · Angular · Tailwind CSS

Databases: MySQL · (SQL)

Cloud & DevOps (AWS): EC2 · S3 · RDS · IAM · CloudFront · SES · Route 53 · CloudWatch · CI/CD Pipelines

Concepts: REST APIs · Microservices · JWT / RBAC · Agile / Scrum · OOP

Tools: IntelliJ IDEA · VS Code · MySQL Workbench · Postman · Git · GitHub

OS: macOS · Windows

CERTIFICATIONS

- **Software Engineering Job Simulation** · JPMorgan Chase · Forage · 2026
- **Certified Java Full Stack Skills Program** · EduBridge Learning Pvt. Ltd. (in partnership with Capgemini) · 2023
- **Java Full Stack Course** · Pentagon Space Private Limited · 2022

TRAINING & INTERNSHIP

EDUBRIDGE LEARNING PVT. LTD.

Bengaluru, Karnataka, India

Java Full Stack Trainee • Training & Internship

May 2023 – Oct 2023

- Completed an industry-grade Java Full Stack Development program, achieving Grade A (79%), covering Java, Spring Boot, RESTful API design, and frontend integration workflows.
- Built a full personal portfolio site using Angular with component-based architecture, client-side routing, and responsive UI — delivered as the program capstone project.

PENTAGON SPACE PRIVATE LIMITED

Bengaluru, Karnataka, India

Java Full Stack Intern • Training & Internship

March 2022 – Nov 2022

- Completed structured Java Full Stack training covering core Java, OOP principles, backend development, and web application fundamentals through batch-based practical projects.
